

GDA2020 Update

1 What?

Australian governments, through Intergovernmental Committee on Surveying and Mapping (ICSM) are responsible for Australia's datum **GDA2020**, which has been implemented nationally. GDA2020 is the preferred datum because it is closely aligned to a global reference frame, the International Terrestrial Reference Frame ITRF and consequently more accurate than GDA94. AllDayRTK Operations will update sites with new GDA2020 Regulation 13 certificates.

2 When?

Monday 27th January 2020 00:00 am Midnight (AEDT).

3 Impact!

GDA2020 coordinates will be updated with AllDayRTK GDA2020 services for each state jurisdiction.

GDA2020 Service	Address	Port	Datum
NSW	nsw2020.alldayrtk.com.au	2101	GDA2020
VIC	vic2020.alldayrtk.com.au	2101	GDA2020
QLD	qld2020.alldayrtk.com.au	2101	GDA2020
SA	sa2020.alldayrtk.com.au	2101	GDA2020
TAS	tas2020.alldayrtk.com.au	2101	GDA2020
NT	nt2020.alldayrtk.com.au	2101	GDA2020
WA	wa2020.alldayrtk.com.au	2101	GDA2020

4 Help?

For further information on GDA2020, please see the ICSM fact sheets on GDA2020 available at:
